

COVID-19

During these challenging and unprecedented times, Depke Gases and Welding Supplies is committed to providing your business with the welding, safety and gas products that you require. Depke Gases and Welding Supplies will continue to operate as an essential business after the Governor's "Shelter In Place" proclamation. Our stores and warehouses will remain open to serve you and the critical industry you are a part of.

In response to COVID-19, we have taken actions to ensure continued service to our customers while keeping our employees and customers safe. We've ramped up cleaning in our facilities, limited access inside of our warehouse and office facilities, and implemented a more mobile workforce where possible.

If you visit our stores, we ask that you call ahead whenever possible so we can have your order ready when you arrive. In some situations, we may recommend that you remain in your car and we'll bring your order out to you.

To call ahead, you can call your local store directly:

DANVILLE
(217) 446-8814

KANKAKEE
(815) 933-5581

URBANA
(217) 367-1139

Please be safe and stay healthy. We're all in this together.

OLD VALUES...NEW IDEAS
